
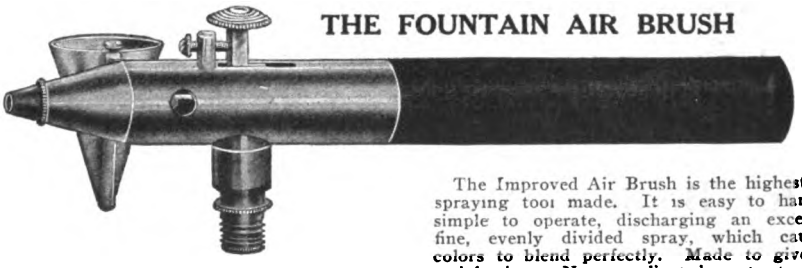
Make Your Backgrounds with the Fountain Air Brush

Practically all backgrounds must now be worked up after certain color schemes and are made to imitate the most expensive decorations.

The Fountain Air Brush can be used more advantageously than any other tool in coloring any surface whether of cloth, wall board, stucco or wood. The air brush will give you all gradations of tone, flat or clouded. It makes the best marble effect known. (See above illustration.)

With the aid of stencils you can air-brush any design on your background and on other decorations such as panels, screens, pedestals, columns, etc., etc.



THE FOUNTAIN AIR BRUSH

The Improved Air Brush is the highest type of spraying tool made. It is easy to handle and simple to operate, discharging an exceptionally fine, evenly divided spray, which causes the colors to blend perfectly. Made to give lasting satisfaction. No complicated parts to get out of order.

FOR MAKING ATTRACTIVE SHOW CARDS

The Fountain Air Brush is recognized as the best medium for making the most beautiful and effective show cards known. Another great advantage lies in the fact that by means of the air brush you can make large quantities of cards of the very highest order quicker than by any other method.
